KEYNOTE SPEAKER:

PATRICIA PEARCE, MD (AKA LEIGH SMYTH, MD)

Dr. Patricia Pearce is a recently retired clinical psychiatrist. She received her medical and psychiatric training from the University of Kentucky in Lexington. Dr. Pearce dedicated thirty years of her life to private clinical practice of adult psychiatry, primarily in the Raleigh, NC area.

Dr. Pearce is the author of *Living with Alzheimer's: A Journey Observed*. The book is drawn from a merging of her professional observations of the disease with firsthand caregiving of her spouse of over 40 years, as they traversed a 12 year course of the disease together. She reveals the personal side of signs and symptoms of the disease beyond memory loss that make up the full developmental syndrome of Alzheimer's. She then sheds light on the relationship strains and ethical binds resulting from this insidious illness, with coping strategies and suggestions from this seasoned clinician/spouse.

Dr. Pearce is now making her home in the Charleston, SC area. Hobbies and interests of retirement include continued education and support to those caregivers and loved ones of Alzheimer's patients. She speaks on the topic of Alzheimer's disease as well as being a living example of having 'survived' it, in maintaining a quality of life for both caregiver and patient.
